

## **Custom DIN Rail Assembly Ordering Instructions**

Use the DIN Rail Assembly Order Form on the following page to design your custom DIN Rail Assembly. You can fill out the form either in this editable PDF file directly, or print out the form to complete. Email completed forms to the ASI Customer Service team @ Orders@sourceasi.com.

- 1) Begin by completing the form with your Contact Information allowing our Team to be able to provide accurate quoting or address any questions about your order promptly. Note the Number of Rail Assemblies & Date Required.
- 2) Fill Out the DIN Rail Assembly Specifications according to the diagram to include:
  - (A) Total Length of Rail
  - (B) Mounting Allowance at Ends
  - (C) Mounting Slots or Holes
  - (D) Rail End Stops
  - (E) DIN Rail Assembly Components
  - (F) Marking and Printing
- 3) For (E) DIN Rail Assembly Components Indicate in the Table below the Specifications and also in the Diagram to the right all of the Part Numbers of the requested Component Types to be assembled on the DIN Rail in the order as they should be assemblied. In the Table include:
  - a. Component Part Number
  - b. Quantity
  - c. Decription (Optional)
- 5) For (F) Marking and Printing Indicate if you need any Markers with or without Printing including the specific locations and orientation of the markers. The Markers also should be indicated on the Diagram to the right for accurate order and location
