

LTUR4.2-15(A+C) 4.2A USB-C 15A-125V TR Duplex Receptacle

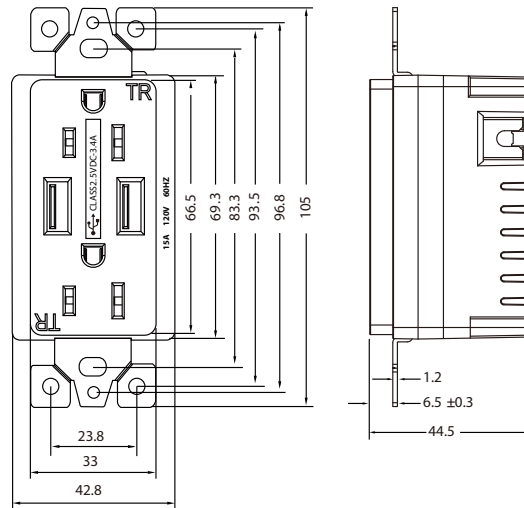

Model	LTUR4.2-15(A+C)
Color	White
Receptacle type	Duplex, tamper-resistant
Electrical rating	15A, 125V AC, 60Hz
NEMA configuration	5-15R
USB ports	1 Type-A and 1 Type-C
USB output	5V DC, up to 4.2A total
USB charging power	21W
Charging protocol	BC1.2
Charging control	Smart chip
USB protection	Short circuit, overcurrent, overload, over-voltage, undervoltage, and overheating
Safety and installation features	Tamper-resistant shutters, self-grounding clip, zinc-plated steel yoke, captive screws

The LTUR4.2-15(A+C) is a white 15A tamper-resistant duplex receptacle with one USB Type-A port and one USB Type-C port. Its smart chip supports BC1.2 charging and delivers up to 4.2A and 21W total USB output. Built-in safeguards help protect connected devices against short circuits, overcurrent, overload, overvoltage, undervoltage, and overheating. The receptacle also features a self-grounding clip, zinc-plated steel yoke, captive screws, and a tamper-resistant shutter system designed to help prevent children from inserting foreign objects.

Key Features:

- 15A, 125V AC tamper-resistant duplex receptacle
- One USB Type-A port and one USB Type-C port
- Up to 4.2A and 21W total USB output
- BC1.2 charging with smart chip control
- Protection against short circuit, overcurrent, overload, overvoltage, undervoltage, and overheating
- Tamper-resistant shutters help prevent insertion of foreign objects
- Self-grounding clip and zinc-plated steel yoke
- Captive screws for installation
- White finish
