

The ASI391007 is a NEMA style ring lug terminal block with a UL rating of 130A, 600V. The ring terminal M8 screw size accepts wires terminated directly under the rectangular flat washer or wires equipped with ring, fork or spade lugs. The modular DIN rail mounting of the ASI391007 27mm wide NEMA style terminal block allows for assembling any number of circuits together. The center of the barrier strip type NEMA terminal block is designed to accept a snap in label for easy visual circuit identification. Other models of the NEMA style DIN rail mount terminal block include up to 309A, double level, and sliding link disconnect.
